IN THE SPOTLIGHT...

The Perfect Scissors by Karen Kay Buckley

You will love the way the serrated blade cuts into fabric, because the special blade pulls the fabric into the scissors rather than pushing it away like traditional scissors. Things you will like about these scissors: cushioned handle, easy for right or left hander to use, blades sharp to the very tip, serrated blade keeps fabric from fraying, light weight and comfortable. They are great for cutting single or multiple layers of fabric. They have a soft grip handle and come with a plastic protective cover. One blade is micro-serrated and one is a regular blade which can be sharpened. Available in 4 different sizes: Curved, 4", 6", and 7 1/2".
